STAFF:

Publisher and Editor: John V. Terrey
Production Manager: Scott J. Young
Office Manager: Lisa A. Friedrichs
Advertising Manager: Cindie P. Bryan
Managing Editor: Dorothy Schecter
Radio Events Editor: Chris Frederickson
Publishing & Editorial Staff: Ray Bintliff, Dave Crocker, Dick Desjarlais, Bobby Lyman, Jean Meldonian
Founding Publisher/Editor: Gary B. Schneider
Contributing Writers: Mike Adams, Richard L. Arnold, Ray Bintliff, Ron Boucher, Paul J. Bourbin, Norman S. Braithwaite, Dave Crocker, Alan S. Douglas, Richard C. Foster, Fred Geer, Jim Kreuzer, Ron Ramirez, Henry Rogers, Ian L. Sanders, Gary B. Schneider, Daniel Schoo, Dwane Stevens, Frank R. White, Ralph Williams

PURPOSE. Antique Radio Classified is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

CONTACTING ANTIQUE RADIO CLASSIFIED. All correspondence should be sent to:

A.R.C., P.O. Box 2, Carlisle, MA 01741.
Only UPS, Federal, etc. items to street address: One River Road.
Telephone: (508) 371-0512; Fax: (508) 371-7129
E-mail: ARCMagzine@aol.com — Web: www.antiqueradio.com
Please, no classified ads by telephone; thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. A.R.C. assumes that permission is given to edit and to publish all correspondence and articles received unless otherwise indicated.

GUARANTEE. You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors to ads are made by A.R.C., upon request a free correction will be run in the next available issue.

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA or MasterCard ($10.00 min.) are preferred. Make check out to "A.R.C." U.S. stamps or cash are OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over $10. If under $10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request. Unless prior arrangements are made, all submitted materials may be edited, become the property of **Antique Radio Classified** and will not be returned. Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS – DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. Since artwork is reduced to 63% in the printing process, **originals must be the artwork size listed below.** Do not send in artwork on art board or send negatives. Ads should be typeset or typed neatly with a carbon ribbon, black ink (not pencil) on white. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Photos should be at an 85-line screen; otherwise, add $14.00 per photo for screening. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/8-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

EDITOR'S COMMENTS

A touch of fall in the air seems to bring on a frenzy of activity in the radio collecting community. This is particularly true here in northern climes where a tree, early touched with red and gold, reminds us that this season of great outdoor flea markets is drawing to a close. And so it was with a sense of urgency and anticipation that radio collectors from all over the world gathered in Illinois and New York to enjoy Radiofest and the AWA Conference, held this year only a week apart.

In fact, the excitement conveyed by the reports and photos of these events led us to conclude that they should be the focus of this issue. Whether or not you attended AWA or Radiofest, A.R.C.'s action-packed pages offer as accurate a record of the proceedings as we could muster. The photos are especially good reminders of the unusual equipment and the interesting people that make the fall radio-collecting season so exciting. Enjoy!

News of two Canadian events is a welcome reminder that our northern neighbors are keeping up our interests. Larry Babcock tells us of his enjoyable time at the September London Vintage Radio Club meet in Guelph, Ontario. And winter does not deter the Toronto collectors, as Gary Borton reports that a new show and sale called "Relics of the Electric Age" will be held there on December 8.

Also reported in this issue is the Colorado Radio Collectors' 5th annual auction in Denver. More than 100 lots brought over $2,000 in bids.

Photo Review contrasts the sizes of a small Dick Tracy 2-way radio and a huge Western Electric 250-watt broadcast transmitter. *Radio Miscellanea* offers some comments on the meet in Elgin and on the A.R.C. web site.

Candace Savage's review of Eric Rhoads' book *Blast from the Past — A Pictorial History of Radio's First 75 Years* will tempt you to put this handsome book on your holiday gift list.

This month marks the first anniversary of our World Wide Web site, and we asked Cathy Faye Rudolph, who designed and maintains our site, to write a 1-year review of its development. By the way, "hits" are now running more than 100 per day, totaling over 20,000 visits logged in the last year. If you have access to the World Wide Web, check us out at "http://www.antiqueradio.com".

Statement of Ownership. The required U.S. Postal Service statement appears below and shows that our paid circulation is 8,153. Thanks to all of you for your support of A.R.C. throughout the past twelve years.

Coming Radio Events. With the holidays approaching, radio event activity is moderating only slightly — there are over 40 events for the collector this month in the U.S and Canada. Don't miss the 2-day Southern California Antique Radio Society Meet in Van Nuys, California. And in December, international events of note are being held in London, England, Toronto, Canada and Vienna, Austria.

Happy Collecting!

John V. Terrey, Editor

ON THE COVER

In keeping with this year's AWA Conference theme — "100 Years of Atwater Kent" — our cover is a photo of an advertising display, shown at the conference as part of the extensive collection of Atwater Kent expert Ralph Williams. For more about this display, see page 12.

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

Antique Wireless Association 1996 Conference and Auction Report

Rochester, N. Y. — September 4-7, 1996

COMPILED FROM REPORTS BY RAY CHASE, TIMOTHY MARTIN, LUDWELL SIBLEY, JOHN V. TERREY, AND THE AWA

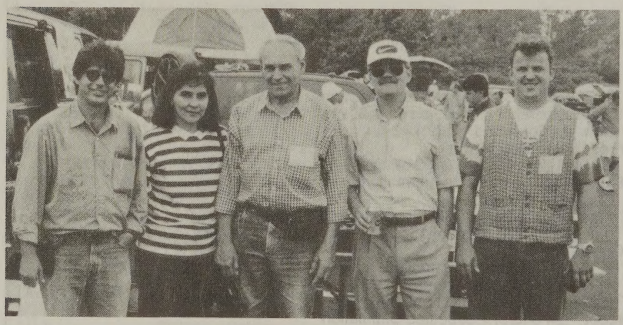
The Antique Wireless Association (AWA) held its 35th annual Historical Radio Conference at the Thruway Marriott Hotel, in Rochester, N. Y., on September 4-7, 1996. Registration numbered 875, but total attendance was over 1,000, representing ten countries. The many events that make this conference the best in the country included an outdoor flea market, an indoor book fair, 4 auctions, an old equipment contest, displays, presentations, trips to the AWA Museum, and great all-round camaraderie.

Familiar characters on the novelty radio scene. Top shelf: Elvis Presley, Tony the Tiger, radio robots, Superman, and Oscar the Grouch. Second shelf: R2-D2 from "Star Wars," Batman, a radio locomotive, and Bugs Bunny. The Jolly Green Giant, a radio bowling pin, and a radio violin share space with other transistor radios on the table.

Excellent weather on the three main days made the flea market more enjoyable than ever, and a few eager beavers even opened up on Tuesday evening. On Wednesday, your editor did a count and found 180 open at one time, while on Thursday at 1 P.M., 160 were in evidence. During these fine days, vendors overflowed the paved area onto adjacent lawns, but Saturday's rain left only a few diehards in business.

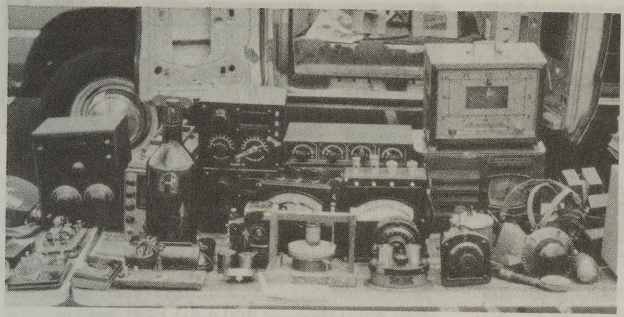
The old equipment contest celebrated the conference's central theme — 100 years of Atwater Kent. Nineteen categories were arranged by the kinds of products that Atwater Kent produced from 1896, when the company produced pre-radio products and radio instruments, to the 1930s, when the factory closed.

Complementing the contest, Ralph Williams presented an extensive display of Atwater Kent equipment, largely brought from his Voice of the 20's Museum in Orient, L. I., N. Y. Ralph is well known for his Atwater Kent expertise, and at a Thursday seminar, collectors were encouraged to challenge him with unusual Atwater Kent items for identification.



These Brazilian collectors were caught browsing at A.R.C.'s flea market table. Left to right: Carlos Fonseca, Maria Monica, Edson Monica, Valentino Bergamo and Cleber Bergamo.

The Museum of History and Technology in West Virginia was also represented in a seminar presented by Lloyd McIntyre. Other seminar topics included the Fleming valve, shortwave listening, the RCA Riverhead Station, key and telegraph, and the pre-1912 wireless period. In all, this confer-



Variety in the flea market. Left to right: a Clapp-Eastham Radak, a crystal set, a bottle radio, a Radiola III, an early telephone transmitter reproduction, Atwater Kent breadboard parts, etc.

ence is a big learning experience for those who take advantage of the many excellent seminars.

At the banquet on Friday evening, various AWA awards were presented. The entertainment featured a re-creation of the old time radio show "Baby Snooks," directed by Gary Yoggy, and music of the period by the "Boogie Woogie Girls" with Ed Clute at the piano. Both this event and the Saturday finale luncheon were well attended.

On Thursday, the communications equipment auction, conducted by Ed Gable, offered over 50 items, including ham radios, transmitters, receivers, and other equipment. Highlights were a Collins 75A-3, selling at $370, and a National FB-7, at $250. Sales totaled about $3,500.

Conducted by auctioneer Walt Buffinton, the general auction offered 541 lots to 371 registered bidders. There were lots from three estates of about 30 items each, plus museum deaccessions, leading to an unusually long session on Friday.

In the tube auction, a DeForest spherical Audion put in an appearance and sold for $1,110, about 23 percent more than an Audion of two years ago. Another highlight was a French E4M World War I transmitting tube selling at $850.

Among the outstanding paper auction items were a *QST* #1 selling for $420 (even though the question of its being a reprint was not resolved), and a 1913 Marconi catalog, along with *Communication Laws of the U. S.*, 1913 and 1919, selling for $450. Two unique collectibles were a framed photo of the Atwater Kent factory employees, selling at $400, and a framed photo of Samuel F.B. Morse with a signed letter, at $1,750.

***A warning**: Auction prices are not current values. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.*

The radio auction included consoles this year, and there were several available. Clapp-Eastham HR battery sets also seemed plentiful, as the prices of four of them averaged about $250. World War I items sold for big bucks. Examples are a Western Electric SCR-59 aircraft receiver, selling at $1,500, and a Western Electric CW-938 shipboard transmitter receiver, at $2,300. Among the other early battery sets bringing high prices were a DeForest Interpanel (an AWA Museum deaccession), selling at $3,000, a Grebe CR-5, at $1,300, and a Federal 59, at $1,150. An Ericsson Morse alarm register sold for $1,700.

The total proceeds for all 4 auctions was about $62,500.

To Ray Chase, Tim Martin, Ludwell Sibley, and members of AWA, we extend our sincere thanks for the information that makes this report possible. Photos contributed by Ray Bintliff and John Maurer are also invaluable. When we attempt to put such a report together, we realize once again the importance of our generous contributors.

This report is our best attempt to combine all the information from our reporters and photographers. We have eliminated auction items with inadequate descriptions, some in poor condition, and some with low selling prices. A price ending in ".50" has been rounded down to an even dollar amount.

e=excellent, vg=very good, g=good, f=fair, p=poor, unk=unknown, BB=Brass-Based, TT=Tipped, w/manual=original manual, w/manual (c)=photocopy of manual, N.I.B.=new in box, NT=no tubes, WT=with tubes, PS=power supply, unkw=unknown working, wk=working, nwk=not working

More About The Cover — Atwater Kent "Dealer's Helps"

BY DOROTHY SCHECTER AND RALPH WILLIAMS

Our cover this month is a photo of an advertising display, shown at the AWA Conference as part of the extensive collection of Atwater Kent expert Ralph Williams. The table lamp and illuminated sign accompanying the Atwater Kent Model 35 were offered as "dealer's helps" in the 1927/1928 *Atwater Kent Radio Dealer Help Catalog*.

The sign is especially interesting in that it lights up with color and can flash, as well as remain permanently on. When the light is off, the entire sign presents white letters against a dark gold background. However, when the light is on, the words "Atwater Kent Radio" shine red, while the words "One Dial" and the arrow remain white.

The table lamp too is an interesting piece, used, no doubt, by the salesman as he signed a customer up for a $1 a week installment plan. In incidental light, the lampshade is a neutral or light tan color with red highlighting the letters. But, turn the lamp on and the whole shade becomes a translucent café color with bright red letters. The iron base of the lamp is labeled with an Atwater Kent medallion. Only about 50 of these lamps are known to exist.

Needless to say, these two advertising pieces enhanced the Model 35 and made an eye-catching display, then as now.

The AK Model 35 itself was a transition set. As Atwater Kent's first metal-stamped cabinet, it replaced the wooden box sets and was the precursor to the Models 37, 38, and all the 40 series of AC-powered radios. Like the Model 30 and subsequent models, it has one dial, but it is different in that the chassis is turned upside down, and the tubes, also upside-down, are held in the sockets with UX pins.

Of the four different types of Atwater Kent Model 35s, two have the antenna, ground, and speaker terminals on the back, and two have them on the side. The latter is more rare and is the type Ralph Williams displayed at this AWA event.

Another interesting bit of historical data about the Model 35 is that it was the "millionth radio" produced by Atwater Kent. On the day the Model 35 was made, Atwater Kent identified all the other Model 35s produced as millionth radios by attaching a keystone-shaped medallion to their fronts. One of these radios may be seen in the Philadelphia Atwater Kent Museum.

(Dorothy Schecter, A.R.C., P.O. Box 2, Carlisle, MA 01741. Ralph Williams, 30675 Main Rd., Orient, NY 11957)

"Relics of the Electric Age" Show and Sale

Toronto, Ontario — December 8, 1996

BY GARY BORTON

A.R.C. has learned of a welcome new event on the radio-collecting horizon. Many of you may have heard at the AWA Conference in September about this show/auction in Toronto, Ontario, Canada, planned and publicized by Gary Borton. Such events do much to further our collecting interests, and we wish our northern neighbors well. Let's hope many of you can attend. (Editor)

"Relics of the Electric Age" — a first on the Canadian collectibles show scene — will be held in the Brigantine Room, York Quay Centre, Harbourfront, Toronto, Ontario, Canada, on December 8, 1996. Approximately 50 dealers specializing in vintage radios, televisions, appliances, vintage video tapes, early radio programs, paper and books on the history and development of the electronic media, as well as ephemera related to radio and TV, will sell their wares.

In addition to the sale, the event features a number of displays reflecting current collecting interests and the evolution of electrical/electronic technology. Area radio collecting clubs will be on hand to promote the hobby and to introduce the ins and outs of radio collecting to neophytes.

The afternoon seminars will feature two speakers. Malcolm Baird, son of John Logie Baird (early British television pioneer), will speak about his father and his contributions to television. Also, W.D. McGregor, senior vice president of Electrohome, will talk about the company's role in the Canadian electronics industry since the turn of the century.

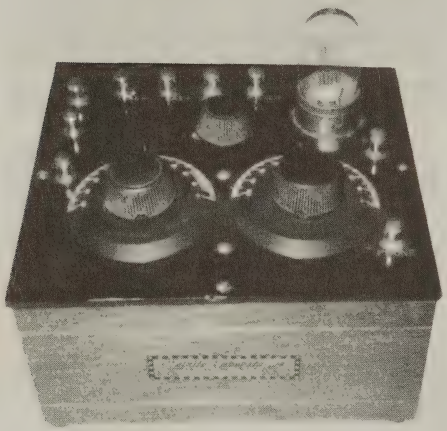
Another highlight of the afternoon will be an auction held from 3 to 5 P.M. Everyone in the radio collecting community is invited to attend this first major radio event in Canada.

Some vacancies for vendors are still available. To reserve space and for more information about the event, call: (416) 969-1642.

(Gary Borton, 181 Bathurst St., Toronto, Ontario, Canada M5T 2R9)

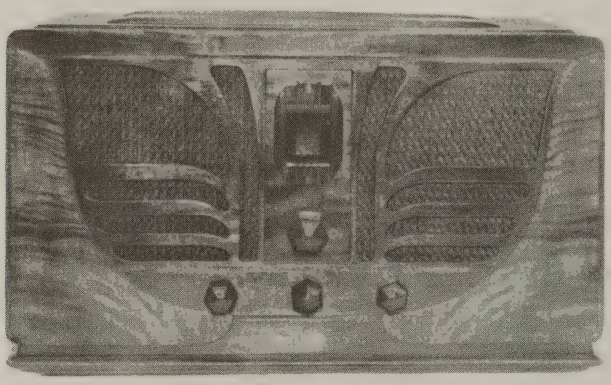
PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.



STEINITE MODEL UNKNOWN – This 1-tube set was sold by mail order in late 1924 by Steinite Laboratories, Atchison, Kansas, for $12. The company also sold a crystal set, a 2-stage amplifier, and a 5-tube radio. *(Ed Bell – Raleigh, NC)*

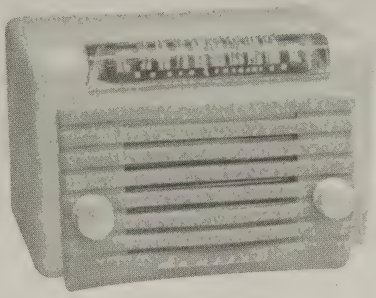
PHILCO ADVERTISING PIECE – This Philco advertising piece has two renderings of a musician, with hair slicked back and dressed in a tuxedo, playing a trumpet. One picture, which is out of focus and shows a bent instrument, is labeled "Unbalanced Philco," while the other is a crystal clear photo of the same musician playing a straight instrument and labeled, "Balanced Philco." The case measures 2¾" wide x 6¾" long x 1¾" high. The miniature saxophone in the case is unexplained. *(Hal Kravig – Bartlett, TN)*



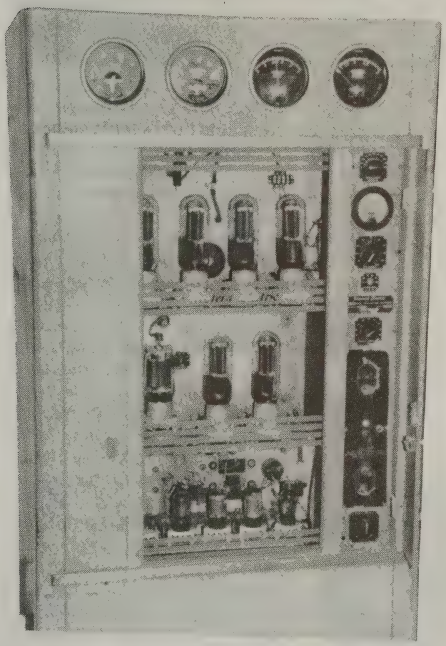
PHILCO MODEL 45C – This stylish table model, made in 1934, is commonly known as the "buttterfly" radio because the grille design suggests butterfly wings. *(Paul Putnam – St. Augustine, FL)*

PHOTO REVIEW

PHILCO MODEL 40-88 – This 1940 battery-operated, 2-band portable radio has 5 loktal-based tubes with an untuned RF amplifier stage, a pentagrid mixer-oscillator, and an IF stage preceding the detector. This set has 2 loop antennas, one for each band. Frequency coverage is standard broadcast and 5.8-18 megacycles. *(Doug Houston – Ortonville, MI)*



ADMIRAL MODEL 7TO3CG – This early 1950s set is the smallest 5-tube AC/DC set I have ever seen. It measures 5½" wide x 4" tall. *(C.E. Clutter – Portland, OR)*



WESTERN ELECTRIC 455 BROADCAST TRANSMITTER – This grid-modulated, 250-watt, AM transmitter is built like a tank and weighs nearly as much. Collecting big transmitting gear like this provides great exercise! *(Allan H. Weiner – Kennebunk, ME)*

DICK TRACY 2-WAY WRIST RADIO – This 1961 radio operated on 27.155 MHz in the 11-meter band. The transmitter/antenna was attached to the belt, while the microphone/speaker was worn on the wrist. The wire was hidden up the wearer's sleeve. This one works. *(Kurt Henriksen – Peotone, IL)*

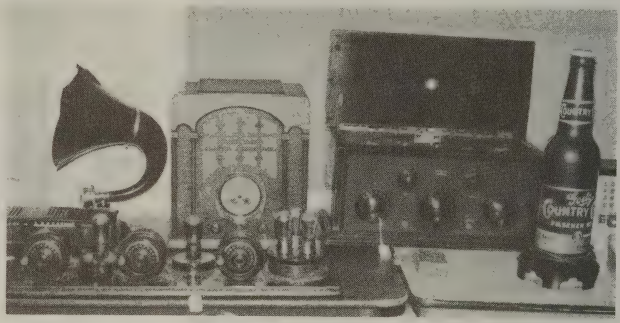
Antique Radio Club of Illinois Radiofest 1996

Elgin, Illinois — August 28-31, 1996

REPORTED BY JOHN V. TERREY WITH INPUT FROM JEFF AULIK AND KARL AYER

The Antique Radio Club of Illinois (ARCI) held its Radiofest 1996 from August 28 to 31 at the Holiday Inn Holidome and Convention Center in Elgin, Illinois. This event held particular significance for me — your editor — because it was here at Elgin ten years ago that, in the wee hours of the morning, I bought *Antique Radio Classified* from Gary Schneider.

I remember well that transaction at the bar, as well as my announcement at the banquet that the magazine would continue and that I would appreciate your support. This year, again at the banquet, I reminisced and thanked those present for continuing their support through ten good years.

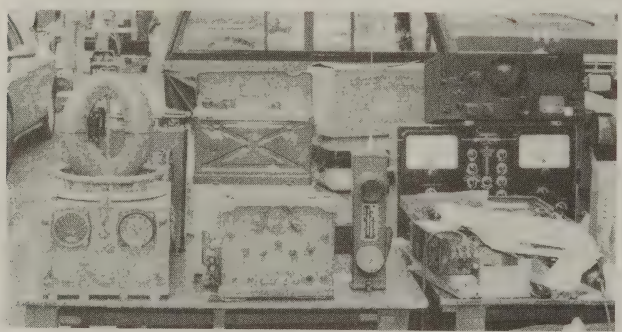


Awaiting auction: an Atwater Kent Model 10 breadboard, a Burns horn speaker with broken petals, a Gilfillan Neutrodyne and a Goetz beer bottle radio.

The fact that this year's Radiofest and Antique Wireless Association annual conference were only one week apart led to some interesting observations. For one, there was concern that many may have felt obliged to choose one over the other — or simply to bypass both. On the other hand, many who traveled across country or from overseas were able to plan a 10-day or 2-week vacation around the two events. This may have been especially true for the foreign visitors who came from Holland, Italy, Korea, New Zealand, South America, and Sweden. In addition, the U.S. collectors who came from afar to both events seemed prepared to carry home much more than usual.

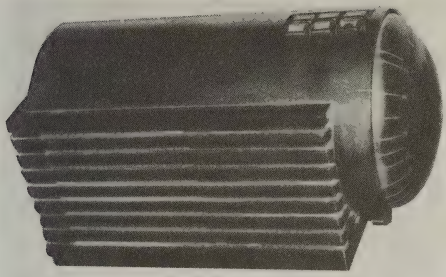
Another observation about meets in general came to mind during this trip — meets offer a wonderful opportunity to visit personal collections in the particular area. I was able to spend part of Saturday viewing Carl and Carolyn Knipfel's collection of early broadcast receivers, along with several garden storage sheds full of old radio parts and gas engines. And while driving there, I caught Jack Benny on Chuck Shaden's *Old Time Radio Show* out of Chicago. What better entertainment for a radio weekend!

The wonderful weather made the flea market — which extended over three sides of the motel and an adjacent field — even more enjoyable. On Wednesday and Thursday, about 185 different sellers had set up. The number dropped to 140 on Friday and to about 40 diehards on Saturday. The club did allow opening late Tuesday afternoon, although the official time was Wednesday morning.

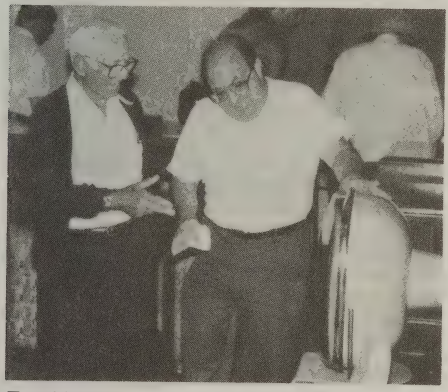


Seen in the flea market were these WWII items brought by Steve Bartkowski: a BC-1003 direction finder, a TBY Marine Corps transceiver, a BC-611 (first walkie-talkie), and a BC-1000 transceiver.

Always a popular attraction, the old equipment contest contest featured many nice entries in eleven categories. Several of them are included in the photos with this report. At the well attended banquet on Thursday night, the popular Dixieland Trio Banjo Buddies



This black plastic Silvertone Model 6110 went to $1,900 before it was sold.



Two bidders examine the Philco Predicta television which sold for $350.

provided the entertainment.

Friday morning's presentation on E.H. Scott's low radiation marine receivers was given by John Meredith and Marvin Hobbs of the E.H. Scott Historical Society. Hobbs, who had been the chief engineer for this Scott project, added much to the story that was new to many of us.

Also available were trips to the Motorola Museum, as well as to the Muchow Museum, which has now grown to 24 rooms. As in the past, ARCI is grateful to Dr. Muchow for this once-a-year opening of his museum only for Radiofest attendees. To the delight of all, the Bad Mood Swing Band, a k a the "Split Level Ramblers," made another informal appearance this year.

The lively auction, conducted by Harry Blesy, included 206 lots and totaled $17,735. Highlights included an RCA Victor chrome and white vinyl upholstered chair selling at $450, a Predicta gas pump-style TV at $350, an all-original Atwater Kent 4600 breadboard with tags and tubes at $850, an Emerson AX235 Catalin with yellow and black trim at $700, and a Federal 110 at $600. A Silvertone 6110 black plastic radio was the top priced item, selling at $1,900. There were no minimums; instead, the seller could bid on his own items with a buyback fee of 5 percent. Sellers paid a 10 percent seller fee.

***A warning**: Auction prices are not current values. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.*

A longtime supplier of reproduction dials, Clint Blais and his wife Mildred have teamed up with Carolyn Stopyra (center) to provide professional cabinet refinishing services.

Radiofest 1997 will be held August 6-9, again at the Elgin Holiday Inn.

Our thanks to Jeff Aulik and Karl Ayer for their invaluable contributions to this report, which is as complete as possible. We have not included items with inadequate descriptions, and some in poor condition or with low prices. Prices have been rounded to an even dollar amount.

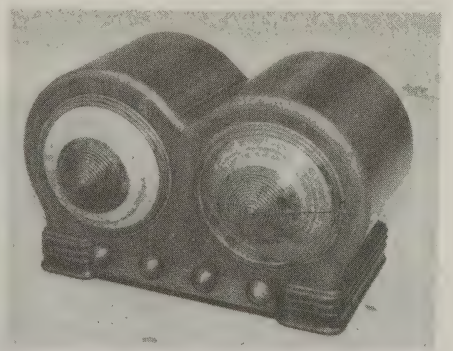
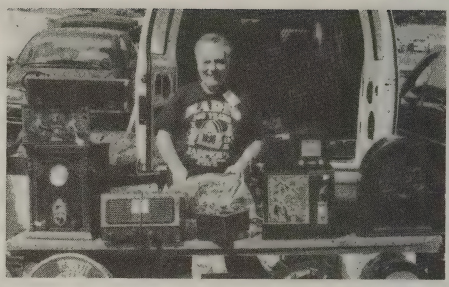
(Continued on following page)



John Sakas offered this Emerson Model BD197, popularly known as the "Mae West," for $1,500.

The Bad Mood Swing Band, a k a the Split Level Ramblers, made one of its annual appearances at Radiofest. Left to right, the performers/collectors are Ed Ripley, Bill Burkett on the mandolin, Keith Zieser on a Hohner 6-harmonica array, Gary Jahneke and Alan Jesperson.



Jasper Giardinia continues to smile, especially now that the Bill Murray movie "Large as Life" filmed in and around his musem has been released (A.R.C. June 1996).

London Vintage Radio Club 8th Annual Antique Radio Flea Market

Guelph, Ontario, Canada — Sept. 14, 1996

REPORTED BY LARRY BABCOCK

The London Vintage Radio Club (LVRC) called it an "antique radio flea market," but I thought it was much more, since it also included a 2-hour auction of antique radios, a contest, and a chance to view the famous Hammond Antique Radio Museum. The date was September 14, 1996, and the place was the Royal Canadian Legion on York Rd., in Guelph, Ontario, just a little over two hours from Buffalo. For me, the location is ideal because this is one of the closer-to-home meets I can attend.

The meet was intended to be both an outdoor and indoor affair, but because of threatening weather, the entire flea market was held inside the spacious facility. The advertisements had stated 9 A.M. to 2 P.M., but after arriving at 7:30 A.M., I purchased my admittance and went right in to the flea market. It was just starting, and before long, about 60 large tables of antique radio items had been set up.

A lot of very different items were for sale, including early Western Electric sets made in Hamilton, as well as Branston of Toronto sets. Makes such as DeForest, Crosley, Northern Electric, Rogers, and Mercury were on display.

Another ten tables were filled with over 100 lots of items to be auctioned. I didn't stay for the entire auction because it overlapped the time for viewing Hammond's Antique Radio Museum. This museum is different from other radio museums.

Fred Hammond has a good supply of working amateur transmitters, large displays of National, Hallicrafters and other amateur receivers, as well as much earlier Canadian and American broadcast radios and wireless. His tube display — perhaps 100-feet long right down the middle of his display hall — is spectacular!

There are even some "Hammond" receivers. These were made by Fred's father in Guelph, Ontario, in the early to mid 1920s and include 3-knob TRF sets. There are also some early "B" eliminators made by the Hammond Company in the late '20s and early '30s.

In the equipment contest the club's president, Lloyd Swackhammer, submitted a 1925 Fleming Bell console. Only two are known to exist. There was also a 1923 Hammond 3-knob TRF receiver manufactured by O.S. Hammond and Son, Guelph, Ontario. Another very cute entry was a set of units which comprise the Marconi Model C, said to be the first tube radio manufactured in Canada.

The event was very friendly and sociable, and the 30 percent exchange rate on the U.S. dollar was a definite plus!

I always enjoy this meet, particularly when it is held in Guelph rather than in the club's hometown of London. Try it the next time it is in Guelph. You will enjoy the Hammond Museum and meeting a lot of Toronto collectors and sellers.

For information on the London Vintage Radio Club (LVRC), contact Dave Noon, 19 Honeysuckle Cres., London, Ontario, Canada N5Y 4P3. LVRC publishes the "LVRC Newsletter — The Loudspeaker" bimonthly. Dues are $15 Canadian. In addition to the Guelph flea market, the club holds regular club meetings five times a year.

(Larry Babcock, 8095 Centre Ln., East Amherst, NY 14051)

Larry Babcock, a retired electronics engineer, specializes in equipment made in the Buffalo area, as well as early sets of the 1920s. A past president of the Niagara Frontier Wireless Asociation (NFWA), he helped to create the changing radio exhibit in the Amherst, N. Y., Colony Park Museum. An inveterate auction and flea market attendee, he is a frequent contributor to A.R.C.

ON AND OFF THE INTERNET

"Tuning in" Cyberspace:
The *Antique Radio Classified* Web Site

BY CATHY FAYE RUDOLPH

Like every other business, A.R.C. must grow with the times. In the past year, this growth has been enhanced by the creation of a web site, which spreads the word about radio collecting much farther and wider than print can do. In fact, our site now draws over 100 visitors daily. We asked Cathy Rudolph, our web site developer, to share her thoughts about the A.R.C. web site. (Editor)

A.R.C. — THE NATIONAL PUBLICATION FOR BUYERS AND SELLERS OF OLD RADIOS AND RELATED ITEMS — PUBLISHED MONTHLY

This month *Antique Radio Classified* celebrates its first anniversary on the World Wide Web. Just one year ago, I was faced with a rather formidable task — John Terrey asked me to design a web site for *Antique Radio Classified.* After leafing through back issues of A.R.C., I knew that I had a challenge on my hands. How do you top the presentation, the writing, the layout of the print version of A.R.C.?

Of course, the wise answer is that you don't top the print version; instead, you attempt to create its parallel on the web. Armed with that principle as the guiding factor in the design, I created the layout, formatting, and design for A.R.C.'s web site.

The new A.R.C. web site has been very successful and popular. Many A.R.C. subscribers have stopped by the web site to see the online version of the latest issue about the time before the postman begins to deliver their printed copies. However, those without web access need not worry. At present, there are no classified ads on the web version.

The web site attracts readers who order complimentary copies of A.R.C. and then often subscribe to the print version. Whether visitors to the web site wish to subscribe, to order from the fine collection of radio-related publications — both of which they can do online — or simply to browse the online articles or photo collections, the web site has something for all comers.

I am occasionally asked about the design of the A.R.C. web site — about why the site doesn't feature the garish colors, animated graphics, and "trendy'" formatting of some of the "cutting edge" sites. Frankly, the information in A.R.C. and its web site stands on its own — it is an honest, clear presentation of the topic, and doesn't need a carnival-like presentation.

It's a great credit to John Terrey's foresight to have A.R.C. on the World Wide Web. The best and brightest promise of Cyberspace is the availability of information and the ability to present and share ideas on a variety of topics. If you enter the phrase "antique radio" in any of the major Internet search engines, you will find a link to the A.R.C. site, as well as many links to magazines, museums, collections, membership and hobby groups, and newsgroups worldwide.

The A.R.C. site is updated monthly. It includes the current issue cover, a feature article or two, book reviews, *Radio Miscellanea, Coming Radio Events*, and links to other radio web sites.

Every once in a while, a loyal reader will ask, "Will the web site replace the printed magazine?" My view is that, as appealing and searchable as web sites can be, there will always be a place for the printed book or magazine. There is an almost personal relationship between the reader and the printed word-on-paper, and there is still no electronic publication device that is so portable, so durable in shape, and so economically feasible as the friendly printed magazine or book.

Perhaps some day there *will be* such "reader" devices, and over time collectors will seek out the earliest models at auctions, write articles about them, and hold events to celebrate them. Who knows —perhaps that heralds the publication of *Antique "Reader" Classified.*

(Cathy Faye Rudolph, 38 Sandy Ridge Road, Stoughton, MA 02072)

Cathy Rudolph is the owner of the web and graphics design firm Wayward Fluffy Publications <http://www.fluffy.com>. Her company, first founded as a publisher of children's literature, has designed such sites as "Antique Radio Classified" <http://www.antiqueradio.com>, The Wakefield Corporation <http://www.wake.com>, The Concord Review <http://www.tcr.org>, and BMUG, a not-for-profit computer users' group <http://www.xensei.com/users/bmugbos>. The firm also creates 3D computer art, which is on display at a World Wide Web artist's loft at <http://www.geocities.com/soho/4954>.

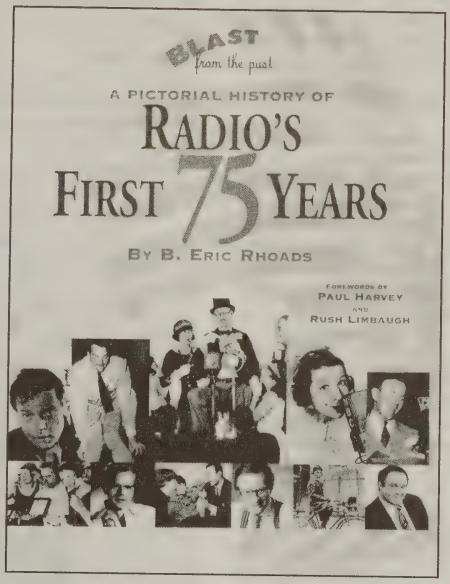
BOOK REVIEW

Blast from the Past — A Pictorial History of Radio's First 75 Years

By B. Eric Rhoads

REVIEWED BY CANDACE SAVAGE

Blast from the Past — A Pictorial History of Radio's First 75 Years by B. Eric Rhoads is a 431-page book which segments the history of radio broadcasting relative to programming personalities, performers, and coverage of major events by decade from the pre-1920s through the mid-1990s. Each decade chapter is filled with interesting photographs of high quality — over 900 in total, many published for the first time. Each chapter also offers a brief synopsis of the strategies of the broadcasting industry within that decade.



This book, essentially a pictorial reminiscence written to coincide with the 75th anniversary of radio in 1995, captures all of the glamour, intrigue and details which radio has embraced for these many years. The author — a former disc jockey, program director, programming consultant, station general manager, and radio group owner — now publishes the trade magazine *Radio Ink*. Mr Rhoads also serves as a steering committee member of the Radio Hall of Fame in Chicago.

Forewords by both Rush Limbaugh and Paul Harvey contribute further insight into the passion so many have for radio. Also included in this easy-to-read book are sections on the Radio Hall of Fame, the Broadcast Pioneers Library, a Radio Fan Directory divided by various headings, a bibliography and a detailed index.

The first chapter, summarizing the history of radio before 1920, attempts to determine the true father of radio and the name of the first radio station. The author's conclusions and the method by which he arrives at these answers provide much history of wireless communication.

The chapter detailing the decade of the 1920s describes the formation and rise of the first commercial radio stations, along with the sometimes desperate scramble to be "on the air."

Later chapters depict and discuss the "Golden Age" of radio, the impact of FM, the decline and resurgence of AM broadcasting, the everlasting impact of television on the radio industry, and the fascinating details of the strategies employed to survive in a dynamic technical age.

Little attention is given to the impact on broadcasting relative to advances in radio receiving equipment during the 75-year history. However, most readers should find the omission acceptable in light of the overall good quality of the author's efforts.

Anyone who has sat in a quiet room listening to a radio show will enjoy the pictorial and written history of radio as described by Eric Rhoads. And anyone who has never taken the time to truly listen will want to do just that after reading this book.

Published by Streamline Press in hardcover, *Blast from the Past — A Pictorial History of Radio's First 75 Years* is available at $39.95 in a regular hardcover edition from A.R.C. and other A.R.C. advertisers. Be sure to check these suppliers for shipping information. A numbered Limited Deluxe Special Edition, signed by the author and accompanied by a certificate of authenticity, is also available at $75, postpaid, from the publisher, 224 Datura St., Suite 701, West Palm Beach, FL 33401.

[This book should not be confused with *Radio — A Blast from the Past* by Wolff and Jacobson, which is out of print.]

RADIO MISCELLANEA

"Antique Radio Classified" invites its readers to contribute letters and information for inclusion in "Radio Miscellanea" and elsewhere in the magazine. "In The Marketplace" is based on information submitted by the businesses themselves. All topics should be of general interest and sent to A.R.C., P.O. Box 2, Carlisle, MA 01741. All material submitted should be verified for accuracy and may be edited for publication, which is not guaranteed. See the masthead for more details.

On Elgin Meet & Auction Buybacks

Dear Editor:

I always find Elgin to be extremely useful for finding needed parts. In fact, I dedicated this year's trip totally to locating parts, and I was very successful. I was there Wednesday only.

In my hunt for tubes, I found a total of five N.O.S. 47s ranging in price from $7 to $10. Not bad! I found only one 2A5, but failed in my search for a used or N.O.S. 47 globe. As usual some prices were very reasonable and some outright ridiculous.

I saw a lot of radios with schlocky refinishing jobs — that made me very sad. It looked to me as if a lot of people were trying to unload their "training" radios. Still, I'm not being entirely fair, since I have had good deals at Elgin and several with collectors at large.

All in all, it was a fun day.

Paul A. Froehlich, Cross Plains, WI

Dear Editor:

In my opinion, buyback auctions [as were allowed in the Elgin meet auction] do not further our hobby in a positive fashion. I have seen many instances where unscrupulous sellers utilize such auctions in an effort to promote unrealistic prices upon naive buyers. Buyback auctions encourage "commercialization" of prices by overprotecting sellers who are motivated to collect radios more by dollars than by the fun our hobby offers.

At the Elgin auction, the auctioneer reopened the bidding when it was apparent that the bid was a buyback. This practice and the whole buyback procedure needlessly delays the auction to the point where many potential buyers eventually become discouraged and leave early, at the expense of straightforward sellers who later may realize lower bids from a thinned-out audience.

At the 2-day Dallas fall auction, where buybacks are not permitted, I see lively, well attended (to the end) activity. Prices paid there tend to reflect the going price. Occasionally, unexpected bargains appear when only one bidder participates (to the seller's chagrin). Other times, stratospheric prices result when two "got-to-have-it" bidders slug it out (to the seller's elation). However, most of the time, the final bid is close to the market and both buyer and seller seem happy. That's what a collector auction should be.

That's my two cents. What does anyone else think?

Barry McDaniel, Little Rock, AR

A Swiss Kudo for A.R.C.

Dear Editor:

First, let me thank you for the interesting, high quality magazine you create every month. It is highly appreciated by me and many of my collector friends here in Switzerland. We all wish you continued success and hope to read you for many more years.

Hans R. Denzler, Jens, Switzerland

A.R.C. Web Site

Dear Editor:

Just tried your site. Even though I have been on the net for two years, I just tried logging onto the *Antique Radio Classified* web site. I think it is great. The graphics are first rate and it is easy to move around. Great companion to the magazine. I will be a frequent visitor.

Michael Franzen, Los Angeles, CA

Dear Editor,

Love your home page. First class, just like everything else A.R.C. does. By the way, you really made the May ad that we ran for the Mid-Atlantic Antique Radio Club Radioactivity meet look great.

Steve Snyderman, Fairfax, VA

Dear Editor,

I'm a subscriber to A.R.C. and have just gained access to the Internet, and I was wondering if e-mailing ads to A.R.C. is permitted. Please let me know when you get the chance.

Congratulations on a great home page that is very attractive as well as informative.

Mark Hilliard, Allentown, PA

Yes, you can send classified ads, as well as all other correspondence, to A.R.C. by e-mail. However, please make sure to put your full name and address on all e-mail. With over 8,000 subscribers, we have many of you with the same name! (Editor)

Minerva Set Info Sought for Book

Dear Editor:

I am looking for information about the Minerva set shown above and described in *Radio Retailing*, November 1931, as follows: "A 'Universal' midget-style radio set, which can be used either on a.c. or d.c.... is offered by the Minerva Radio Co., 10 N. Clark St., Chicago, Ill. This set has four tubes — two 236's, one 238, and a 237 or a 171A. The speaker is a 6-in. magnetic.... The retail price is $26.25, complete."

This appears to be the first AC/DC radio, but does anyone know if it was actually made or anything about the company? I am doing research for an upcoming book and would like to solve the mystery.

Alan Douglas, Pocasset, MA

Vacuum Tube Repair Wafers

These tube repair wafers are solid-state devices for quick and easy repair of early vacuum tubes. The wafer is installed by simply sliding it over the tube pins and reinserting the tube into its socket. If the filament is intact, but there is little or no emission, the filament may be lit for best visual effect. However, the tube can be open filament.

No change in radio operating voltages is required. Any number of tubes may be repaired in a radio. If wafers are installed on all tubes, the B+ voltage may usually be reduced without sacrificing volume or sensitivity. Performance will vary between radio models.

$10.00/each ($7.50/ea. 3 or more)

New Atwater Kent Breadboard Switch

Exact replacement for Models:
9 • 9C • 10 • 10A • 10B • 10C • 12
and all additional models with board mounted switch.

Newly manufactured under high pressure heat from the same type brown thermoset resin used in the original. Beryllium copper spring contacts are used for long, trouble-free life. Custom built knurl is used to exactly reproduce the original.

$50.00/each

WANTED

FOR MY BROADCASTING MUSEUM

Microphones, stands, call letter plates. Tube amplifiers, mixers, compressors, Hi-Fi equipment. Speakers, on-air lights, equalizers. Disk, wire & tape recorders. Blank recording disks. Catalogs, magazines, manuals. 16" transcriptions, turntables, arms, pickups. Early TV cameras & receivers. Elaborate console, deco, plastic, mirror, novelty & wireless radios. Jukeboxes & parts. Acoustic phonographs.

We are looking for all makes of equipment, and especially *Western Electric*, Telefunken, Neumann and RCA. The museum contains various duplicates and items surplus to our needs, and many of these articles are available for sale or trade. The collection is located in my Victorian seaside inn, The Caffrey House, situated on a bay next to the ocean, in the Southampton resort area of Long Island. A trade of equipment for a stay at the hotel is always encouraged.

ANNOUNCING

Tube Lore

A REFERENCE FOR USERS AND COLLECTORS

By Ludwell Sibley

For serious tube users, collectors, and admirers, a new look into tubes from 1920 to the present: history of design trends, tech data, equivalencies, stocking-up hints, even prices. Here's what it contains:

- **Trends in Tube Design** - major styles that shaped the industry - acorns, metals, loktals, miniatures and subminiatures, lighthouse, nuvistors, compactrons. Includes odd design variants and special "reliable" types.
- **Receiving and Audio Tubes**: "prehistoric" types from 25 tiny manufacturers as well as the big guys. Information on a lot of collectible tubes in one place. Basic data on lots of later types not found in ordinary tube handbooks, and early CRTs.
- **Special-Purpose and Transmitting Types** - covers the familiar ones and lots of unknown types. "Regular" tubes, plus magnetrons, klystrons, , thyratrons, ignitrons, camera tubes, etc. Capsulized characteristics on 2300 "specials" from 5512 to 9019. Helps identify that just-found "whatzit." (Everybody knows a 6922 is a premium 6DJ8, but what about the 7308?)
- **Military Types**: a researched and insightful list of Signal Corps "VT" tubes; the biggest list yet seen of Navy type numbers; coverage of Canadian "REL" tubes.
- **Unique Types** of major makers: De Forest, Eimac, GE, Raytheon, RCA, Sylvania, Western Electric, Westinghouse.
- **User's Guide**: ideas on testing, adapting, repairing, reactivating, reading date codes, detecting the real maker of private-brand tubes, turning random lots into usable repair stock.
- **TV Sweep Tubes**: what tubes are used in eight audio amps and 78 amateur transmitters/linears; hints on substituting as the originals get scarcer and more expensive.
- **Auction Prices**: for collectible and audio tubes, from six major sales.

Contains 186 pages, 8-½" x 11" softbound. Price, postpaid: $19.95 in North America; $24.95 elsewhere. Orderable from:

Ludwell Sibley
44 E. Main St.
Flemington, NJ 08822

Discounts available to clubs on group orders.

FOR SALE: Mickey Mouse Radio. This General Electric clock radio from the 1950s is tuned by turning Mickey's nose! C2418H in white with blue trim. Scratch and small crack in clear plastic..**$54**

CLASSIFIED ADVERTISING POLICY

ONE FREE 20-WORD AD for subscribers in each issue; additional words are 25¢ each. See details below. Classified ads sent by mail, fax or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Stamps or cash are OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on page 2 for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on the inside front cover.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive two months) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small L.) Also: 0, O , o, Q and D; r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets].

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. See inside front cover for additional information.

CLASSIFIED AD DETAILS

Deadline: NOON ET– 10th of the month!

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, etc. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

To encourage varied content of the ads, the same classified ad may be run only once per issue and for only two consecutive months. (To run an ad longer, use a boxed classified or display ad.)

Classified Ad Rates per Month

Subscribers:
- First 20 words: **FREE***
- 25¢ per word for extra words over 20 **plus**
- 10¢ per word for a shaded ad (count all words including free words).
- * Subscribers may take 20 free words on only **one** ad each month.

Non-Subscribers:
- 41¢ per word **plus**
- 10¢ per word for shaded ad.

Please do not forget to send in the extra 25¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

BOXED CLASSIFIED AD DETAILS

Deadline: 1st of the month!

Boxed classified ads can run unchanged for three months or more. No words are free. Ads may be shaded and may include bold and all-capitalized words freely. The ad need not begin with "For Sale," etc. Minimum run is 3 months, prepaid. Discount: 10% for 6 months; 20% for 12 months.

Boxed Classified Ad Rates per Month

Nonshaded ads:
- 36¢ per word for all words,* none free, **plus**
- 10¢ per word for each bold word **plus**
- 10¢ per word for each all-caps word.

Shaded Ads (All words are bold at no charge):
- 45¢ per word for all words* **plus**
- 10¢ per word for each all-caps word.

Non-Subscribers:
- Add 20¢ per word to above costs.

*Three words can be bold-all-caps at no extra charge.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

$20.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The **standard headings**: WANTED, FOR SALE, etc., count as **one word** each time used in an ad. **Name, address** and (one) **telephone number**, count as **6 words**, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.
